Discount Analysis

Plato ₹

Zepto

34.94
Zepto

Blinkit

17.52
Blinkit

- **Insight:**
- Zepto gives avg. ₹34.94 discount vs Blinkit's ₹17.52 which results more aggressive in attracting users.
- **Problem:**
- Zepto risks profit loss from over-discounting.
- Blinkit may lose price-sensitive buyers.
- **Solution:**
- **Blinkit:** ₹5 to ₹10 discounts on daily-use items (milk, rice), plus loyalty offers after 5 orders.
- **Zepto:** Shift to cashback/combo deals (e.g., buy 2 save ₹20), limit discounts to off-peak hours.
- **Winner:**
- **Zepto** wins short-term user growth.
- **Blinkit** better positioned for sustainable profits.

zepto vs blinkit

- **What's happening?**

Blinkit users mostly order daily-use stuff — small carts.

Zepto folks are filling bigger baskets — more ₹400–₹499 orders.

- **So what's the issue?**

Blinkit might be losing users who shop big, monthly-style.

Zepto isn't offering anything for big spenders nothing above ₹600.

- **What can they do?**

Blinkit can push smart combos “monthly family pack ₹499” types.

Zepto should try premium bundles like ₹1000+ curated baskets with free delivery.

- **Who's doing better right now?**

Zepto customers trust it for bigger, more serious shopping.

zepto vs blinkit

3-Order Count by City and Platform

zepto vs blinkit

- **Insight:**
 - **Mumbai**- Highest demand- Zepto slightly ahead (207 vs 205)- Both platforms are equally strong here.
 - **Delhi**- Blinkit leads (183 vs 168)- Stronghold in the capital
 - **Bangalore**- Zepto wins (149 vs 135)- Better presence in tech-driven areas
 - **Chennai**- Blinkit leads (90 vs 77)- Preference towards Blinkit in southern metros
 - **Hyderabad**- Zepto dominates (111 vs 84)- Reverse trend vs Chennai Jaipur & Surat- Blinkit slightly ahead- Stronger in tier-2 markets
 - **Kolkata**- Zepto ahead (52 vs 47)- Narrow gap
 - **Pune**- Blinkit leads (115 vs 106)- Consistent performance
 - **Ahmedabad**- Close race- Blinkit ahead (56 vs 52)
- **Winner:**
 - Zepto leads in 5 cities- Blinkit leads in 5 cities- It's a balanced competition – regional strengths differ.
- **Problem:**
 - No single platform has a consistent lead across cities
 - Customer loyalty varies by region
 - makes unified marketing challenging- Close margins in many cities – Blinkit and Zepto are constantly under pressure to outperform each other
- **Solution:**
 - Hyper-local strategy needed
 - focus on city-specific campaigns based on platform performance
 - Double down on cities where platform leads to build brand dominance
 - Analyze reasons behind regional differences
 - adjust delivery speed, pricing, or offers

zepto vs blinkit

4-Order Count by Payment Method and Platform

What's happening?

- **Card payments:** Zepto slightly ahead (253 vs 240) - users comfortable with digital payments.
- **Cash on Delivery:** Blinkit leads (157 vs 151) - trusted for pay-on-receipt model.
- **UPI rules:** Both dominate here, but Blinkit edges out (603 vs 596) -fast, easy, preferred..

So what's the issue?

- Zepto's edge in card usage shows trust -but not by much.
- Blinkit's higher UPI and COD may mean more casual, low-risk shoppers.
- Neither platform is pushing innovation in payment experience.

What can they do?

- Blinkit can offer UPI cashback offers or "COD with loyalty points."
- Zepto could push card-based discounts or subscriptions for repeat orders.

Who's doing better right now?

- Blinkit - slightly more versatile across payment modes, especially UPI and COD. But it's a close game because both platforms need to personalize payment nudges better.

zepto vs blinkit

5-Order Time Peak Analysis

- **What's happening?**
 - Blinkit peaks at 12 PM (lunch hours) — strong mid-day usage.
 - Zepto peaks at 7 PM (dinner prep) — popular in evening routine.
- **So what's the issue?**
 - Timing mismatch = missed revenue.
 - Blinkit is under-leveraged in evening hours.
 - Zepto is losing orders during the productive 11 AM–2 PM window.
- **What can they do?**
 - Zepto should push snacks & fruits with bundles or flash deals
 - Blinkit: Run 5–8 PM snack & dinner bundle promos (“Evening Express”) to fill gap.
 - Zepto: Push “Midday Essentials” offers or office-hour quick buys (milk, curd, bread) via app banners.
- **Who's doing better right now?**
 - Both shine in different slots, but Zepto's evening peak is closer to real household purchase timing — giving it a slight edge on intent-based orders.

zepto vs blinkit

6-Category Preference per Platform

Platform	Vegeta..	Snacks	Personal Care	Househ..	Fruits	Frozen Foods	Dairy	Bevera..	Bakery
Blinkit	44.81%	57.89%	47.30%	51.29%	52.94%	52.58%	45.29%	48.62%	49.06%
Zepto	55.19%	42.11%	52.70%	48.71%	47.06%	47.42%	54.71%	51.38%	50.94%

- **What's happening?**
 - Zepto is preferred for vegetables, dairy, personal care, beverages, and bakery.
 - Blinkit leads in snacks, fruits, frozen foods, and household items. most categories are closely contested, showing user overlap.
- **So what's the issue?**
 - Neither platform owns all key categories and shoppers may switch platforms based on specific category needs.
 - Category loyalty is thin due to small margins show shifting preferences.
- **What can they do?**
 - Zepto can focus on strengthening snacks and frozen with offers or combo packs.
 - Blinkit should improve trust and selection in dairy and personal care.
 - Both should promote category-wise subscription models or loyalty rewards.
- **Who's doing better right now?**
 - Zepto wins slightly more categories by preference.
 - Blinkit has stronger pull in high-frequency, snack-based orders. A clear need for both to lock in users across all core categories.

zepto vs blinkit

7- Weekend vs Weekday analysis

i- Weekend vs Weekday (AVG Discount)

ii-Weekend vs. Weekday (Avg Delivery time)

zepto vs blinkit

- **What's happening?**
 - Zepto offers much higher discounts than Blinkit on both weekdays and weekends.
 - Average discount:-
 - Weekdays :Zepto 34.48% vs Blinkit 17.42%-
 - Weekends : Zepto 36.02% vs Blinkit 17.75%
 - **Zepto also delivers faster across the week**
 - Average delivery time:-
 - Weekdays : Zepto 11.89 mins vs Blinkit 16.35 mins
 - Weekends : Zepto 11.54 mins vs Blinkit 16.11 mins
- **So what's the issue?**
 - Blinkit offers lower discounts and slower delivery, possibly impacting user retention.
 - Zepto may be sacrificing margin for growth due to aggressive discounting and speed.
- **What can they do?**
 - Blinkit should improve delivery efficiency and introduce time-bound discount slots.
 - Zepto can explore controlled discounting and push loyalty rewards instead of flat cuts.
 - Both can use time-of-day or day-of-week offers to shape buying behavior.
- **Who's doing better right now?**
 - Zepto leads on both value and speed clear winner on operational efficiency.
 - Blinkit needs to close the discount and delivery gap to stay competitive.
